

InnovateX: Establishing a Digital Foundation to Support Global Growth

Growth has outpaced the current finance operating model

System, process, and data constraints reinforce each other

About the client:

- High-tech manufacturer with rapid international expansions
- Growth via acquisitions and new market entry
- Finance capabilities have not scaled with complexity

InnovateX's finance architecture is no longer competitive

How leading CFOs are transforming finance through technology

Legacy Systems²

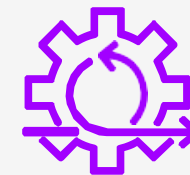

Cloud-Based Platforms

- > "Every finance team across the world uses the same system, the same metrics, and works in a consistent way." (Accenture)

Manual Processing³

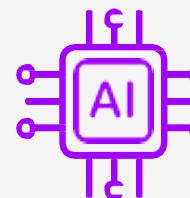

Automated Operations

- > "Planning cycles are 30% faster. Forecasts are 20% to 40% more accurate. Overall productivity in finance increases 20% to 30%." (BCG)

Retrospective Reporting⁴

AI Driven Finance

- > "30%-60% reduction in speed to insights. 30%-50% forecasting accuracy improvement." (Accenture)

Proven value: 3 strategic pillars applied by industry leaders

01 Centralized Financial Core

- Foundation for finance modernization

02 Scalable Automation

- Creating value via finance automation

03 AI Integrated Analytics

- From operations to strategic leadership

Case Studies

01. Siemens⁵

From 16 fragmented SAP systems → ONE cloud ERP (AWS)

Result: Seamless growth with faster M&A integration

02. Meridian Adhesives Group⁶

From manual transaction consolidation → Automated cash forecasting

Result: More strategic planning resources

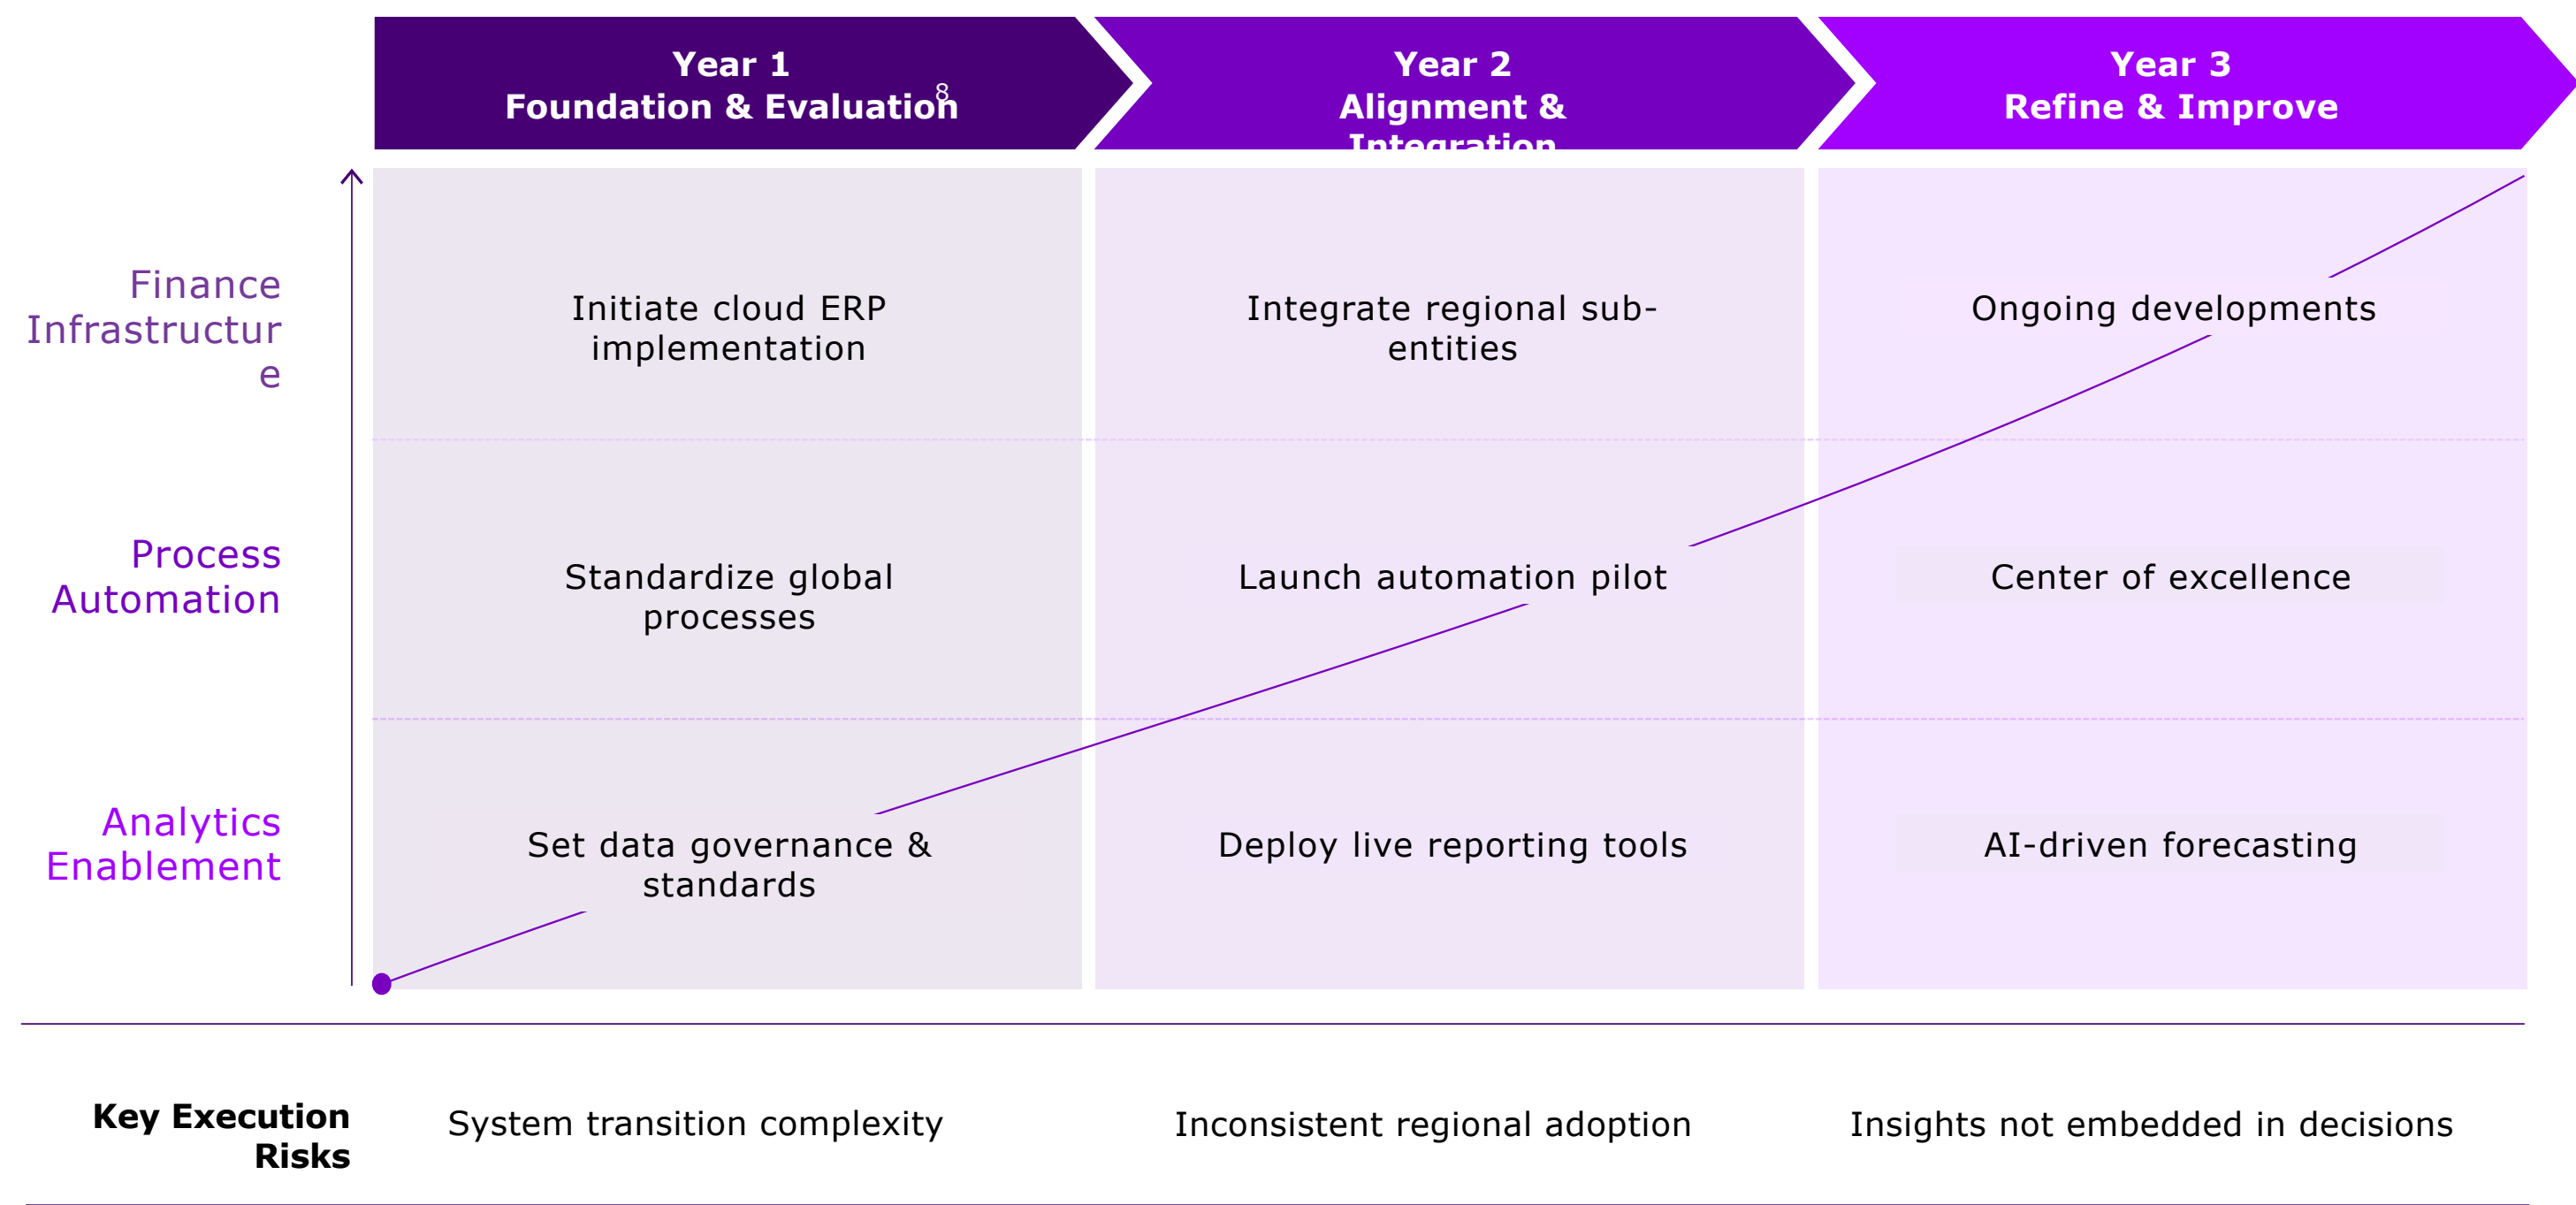

03. Bosch⁷

Manual spreadsheet cash forecasting → Real-time AI dashboard

Result: Real-time visibility on working capital

Vision to value: 3-year roadmap for finance modernization

Target operating model: from insight to growth dec

Definition of Success:

1. Decision Speed

Faster finance reporting cycle (5-7⁹ days)

2. Decision Quality

Forecast Accuracy & Usage (weekly forecast)

3. Cost & Productivity

Manual process automation (30-40%⁸ work)

4. Value Sustainability

Analytics adopted in all major decisions

Immediate priorities:

- 1. Leadership alignment on Target Operating Model**
- 2. Project roadmap commitment and investment plan**
- 3. Launch Cloud ERP and data consolidation**
